# To determine Hospital Presumptive Eligibility (HPE) follow these steps:

- 1) An approved hospital worker completes the HPE Eligibility Worksheet and assists the individual with completing a HPE application.
- 2) The hospital worker determines if the individual:
  - a. Meets citizenship/qualified alien criteria (see page 2 for policy details),
  - b. Is an Alaska resident,
  - c. Is not an inmate confined to a correctional facility,
  - d. Is in an allowable Medicaid category,
  - e. Is not currently enrolled in Medicaid or entitled to Medicare, and
  - f. Has countable income that is under the limit for that category.
- 3) If determined presumptively eligible for Medicaid, the HPE Worksheet(s), HPE approval letter, and completed HPE application is faxed to (907) 269-3099 for benefit issuance.
- 4) If determined ineligible for presumptive Medicaid, the hospital worker will assist the individual with completing a full application for Medicaid through the Division of Public Assistance.
- A qualified hospital is one that participates as a provider under the Medicaid state plan and has notified the Division of Public Assistance of its election to make presumptive eligibility determinations. They must agree to make presumptive eligibility determinations consistent with state policies and procedures.
- A qualified hospital must help individuals complete and submit a full Medicaid Application for Services (GEN 50C) before the end of the hospital presumptive eligibility period.
- The presumptive eligibility period begins on the date the determination is made and ends the earlier of:
  - The date the eligibility determination for regular Medicaid is made, if a full application for Medicaid is filed by the end of the month after the month that presumptive eligibility is determined; or
  - The last day of the month after the month of the presumptive eligibility determination, if a full application for Medicaid is not filed by that date.
- An individual may only receive one presumptive eligibility authorization within a 12-month period, starting with the beginning date of the initial presumptive eligibility period. A pregnant woman can be found presumptively eligible once per pregnancy, even if the pregnancies occur within the same 12-month period.
- Under Federal Regulations in §435.1110(d)(2), a State may disqualify a hospital from conducting presumptive eligibility determinations if the State finds that the hospital is not making or is not capable of making accurate presumptive eligibility determinations in accordance with applicable State policies and procedures.

## Medicaid Citizenship / Qualified Alien Requirements

- 1. Born in the US, DC, Puerto Rico, Guam, Virgin Islands or Northern Mariana Islands,
- 2. A naturalized citizen,
- 3. A Compact of Free Association (COFA) migrant from the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau, or
- 4. A US National born in American Samoa or Swain's Island. An individual who was not born in American Samoa or Swain's Island, but has a parent who was, may be a US National.

If the individual does not meet one of the above requirements, the individual must be a qualified alien AND have held their qualifying status for at least 5 years (unless exempt).

#### Qualified Aliens:

- 1. Lawful Permanent Resident
- 2. Asylee
- 3. Refugee or Amerasian
- 4. Cuban/Haitian Entrant
- 5. Alien granted parole for at least 1 year
- 6. Alien with deportation withheld
- 7. Alien granted conditional entry under immigration law in effect before April 1, 1980
- 8. Battered spouse or child of battered spouse of a US citizen or permanent legal resident and aliens protected under 1508 of the violence against women act
- 9. Victims of trafficking
- 10. Non-citizen native Americans as defined in 4(e) of the Indian Self-Determination and Education Assistance Act, 25 USC 450b(e) and 289 Native Americans.
- 11. Special immigrants from Iraq and Afghanistan admitted under 101(a)(27) of the INA

If an individual is a qualified alien but has not held their qualifying status for at least 5 years, make sure they are not exempt from the 5-year waiting period. The following qualified aliens are eligible for Medicaid even if they have not held their qualifying status for at least 5 years:

Exemptions from the 5-year waiting period:

- 1. Refugee
- 2. Asylee
- 3. Deportation withheld
- 4. Cuban Haitian entrants
- 5. Amerasian immigrant
- 6. Active-duty military or honorably discharged veterans. Includes their spouse (including surviving spouse if not married) or dependent children and stepchildren.
- 7. Victims of trafficking
- 8. Member of a federally recognized Indian tribe
- 9. American Indians born in Canada
- 10. Special immigrants from Iraq and Afghanistan
- 11. Non-citizens receiving SSI

If an individual does not attest to meeting the citizenship/qualified alien requirements, the hospital worker will assist the individual with completing a full application for Medicaid through the Division of Public Assistance. The division will verify the individual's citizenship status and make a full Medicaid eligibility determination.

<sup>\*</sup>All qualified aliens who are exempt from the 5-year waiting period are eligible for Medicaid without the 5-year waiting period after becoming a lawful permanent resident.

## **Section C**

Use the household income limit chart (next page) to determine if the household income is below the applicable income standard for the category for which the individual's presumptive eligibility is being determined.

If the individual passes the income test, presumptive Medicaid eligibility exists. Fax the HPE application, the HPE approval letter, and page 3 & 4 of this HPE worksheet (one for each person approved) to DPA at (907) 269-3099 for benefit issuance. Remember to provide the individual with a copy of the HPE approval letter.
